ABOUT CERAHUB:

Cerahub is the official web portal and a one-stop solution for all the ceramic needs. It is specially made for easy communication between the manufacturers and buyers in a hassle freeway globally.

Designed to benefit the manufacturers as well as the retail customers in the global market, We aim for the manufacturers to increase their visibility and sales while being a part of the portal, while the retail customer can explore and compare products from manufacturers and buy the products at a better rate giving power to both altogether.

Cerahub is an easy yet hybrid portal which covers a large number of products ranging from ceramic tiles, sanitary ware, accessories. The key players are introducing novel and innovative products to attract new customers and strengthen their business and we tend to launch them on the portal as well.

This portal is an outcome of our constant efforts to serve the industry with nothing but the best on the digital front and thus making it easy for the industry to communicate in at the comfort of home, office or any other place.

Registration Process:

There will be two type of registration under CeraHub as below:

- I. Buyer
- II. Manufacturer

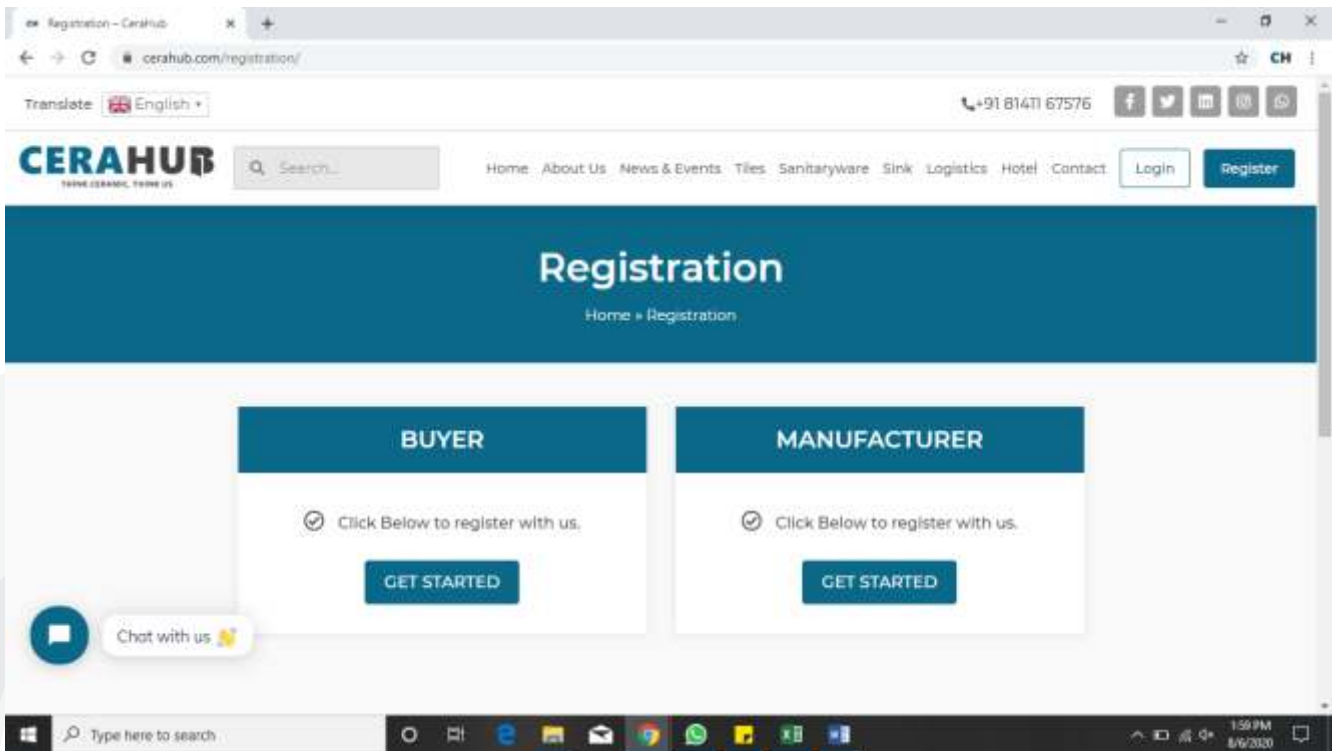

Buyer:

This website will be restricted for non-register user. So any buyer who like to inquire about product will have to register first.

There is simple process to register:

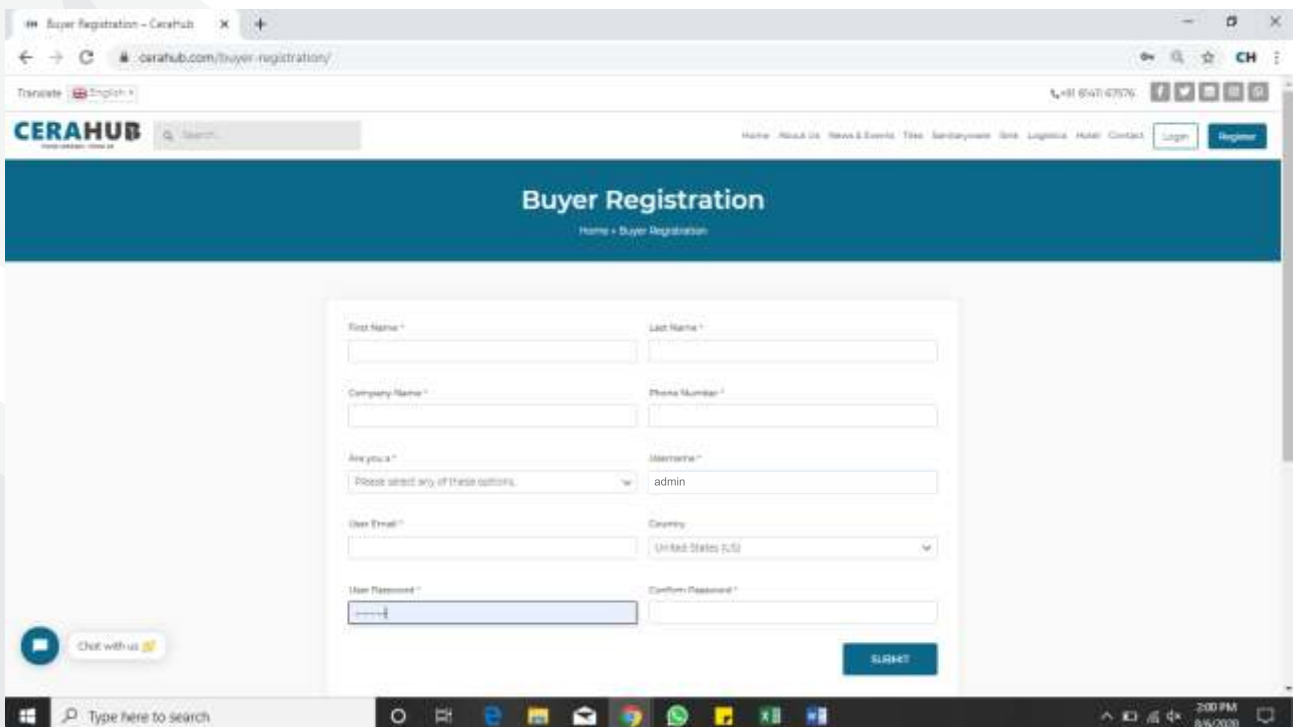

1. Open <https://cerahub.com/>

2. Click on Register Tab Right Corner and it will take you to new page :

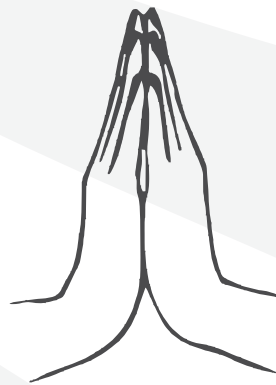

3. Click on GET STARTED under Buyer Tab:

4. There are basic information which buyer will need to fill

5. **First Name :** Buyer's First Name
6. **Last Name:** Buyer's Last Name
7. **Company Name:** Buyer's company name
8. **Phone Number:** Buyer's phone number on which manufacturer can reach to him if needed
9. **Next tab is "Are you a*":** This tab has drop down menu and buyer can select one option whichever is suit you
10. **Username:** This should be unique and easy to remember for you
11. **User Email:** It should be working email address as manufacturer may reach to him by email
12. **Country:** This tab has drop down menu and you can select country from which you are inquiring
13. **User Password:** This is confidential and you should not share with any one
14. **Confirm Password:** Enter same password which you put under user password
15. Then click on Submit and you will see message that your registration is successful. After login with created user name and password, you will have access to entire website and you will able to contact manufacturer directly.

Thank You!!!
